

LibraryCEO - Your Advanced Library System

LibraryCEO nurtures learning, enhances education and facilitates library processes at any organisations across Asia, Europe and the US.

An advanced library and information management solution developed for any organisations, LibraryCEO delivers teaching and library staff with efficient control over information and educational tools while students/staff enjoy easy access to a world of information, learning resources, websites, games and more.

Access the library from anywhere, anytime

LibraryCEO can be accessed "24-7" from anywhere within, or beyond the library or school campus via Internet connection.

Access 'my portal' features and perform cataloguing and stocktaking from anywhere on campus, or home as desired!

Access full LibraryCEO functionality via Internet connection

A powerful and user friendly system for any users around the world

Accommodate different learning strengths

LibraryCEO delivers features suited to the demands of the 'Internet Generation' including all web integration and admin-management facilities.

A range of flexible search options, multilingual capabilities and the ability to catalogue all manner of resources cater to various learning strengths.

- Book cover images and icons identify resources
- Deliver information and alerts as preferred by individual students or staff
- Picture search and multilingual capabilities
- Fully support UNICODE

Manage any format

The type and number of resources that can be integrated and accessed, searched or catalogued in LibraryCEO are only limited by your imagination.

Provide students/staff with access to a variety of information sources beyond the library catalogue; manage video, sound, Internet and non-library resources such as sports equipment.

Catalogue, access and manage video, website, book resources, toys and sports equipment etc

Integrate access to multiple information sources through LibraryCEO

Enjoy time-saving features

Built to librarian design, powered with leading technology, LibraryCEO successfully improves task efficiency and the distribution of information and resources - without sacrificing precision or control.

Powerful integration capabilities with tools such as school administration systems and self-check-in machines reduce manual processing requirements, freeing library staff to focus upon service delivery.

Integrate with administration systems and other tools

Flexible stocktake options

Fully-integrated Z39.50 portal and MARC compliance

Carefree transition

We offers a range of services that make the transition to LibraryCEO system a simple and efficient advance for your library.

Remote installation and data conversion options ensure library staff are not reliant upon the IT department and that system implementation is smooth, streamlined and performed in a project-managed environment.

Remote installation options

Swift, seamless data conversion

Flexible training options

Increased control over information

LibraryCEO is built with functionality to provide staff with ultimate flexibility, efficiency and control over tools and information that facilitate learning.

Configurable lending rules, borrower & resource categories and circulation policies

Provide orders and borrower alerts by intranet or print

Automated overdue, reservation and request alerts at Circulation Desk etc

Core Modules :

LibraryCEO is built with a set of fully-integrated core modules to optimise the collection, management and controlled distribution of information and learning resources.

A range of **optional modules and third-party add-ons** are also available to serve the individual needs of your organisation, its library and learning community.

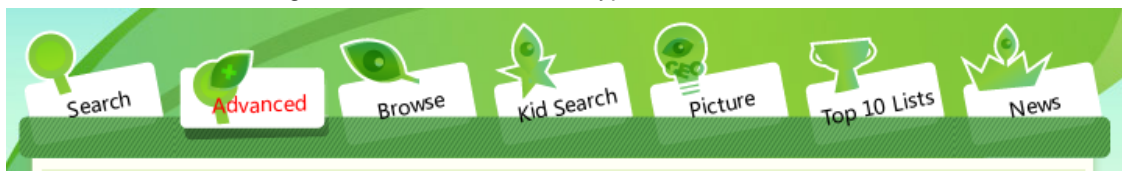

Core Module - OPAC

LibraryCEO contains 3 different interface style allow users to choose.

Including Green Leaves, Orange Pop and OPAC Only.

OPAC contains seven big functions – five different type searches and 2 facilities.

Flexible searches, including Basic Search, Advanced, Browse, Kid Search & picture search. Showing Top 10 Lists & Update News about your library.

Edit the Library Logo, Homepage to promote new resources or events

Full-text searching and support UNICODE (Multi-Language)

After search and the result will be showing like below: (Very clear and easy to understand.)

Home Environment Facilities Web Resources Gallery Calendar Notice Forum Sharing Zone Quiz E-Resources OPAC
